

Information Security Management System Policy

This document is classified as RESTRICTED

Information Security Management System Policy

It is the policy of FDMUK Limited to maintain an information management system designed to meet the requirements of ISO 27001 in pursuit of its primary objectives, the purpose, and the context of the organisation.

It is the policy of FDMUK Limited to:

- Make the details of our policy known to all other interested parties including external where appropriate and determine the need for communication and by what methods relevant to the business management system.
- Comply with all legal requirements, codes of practice and all other requirements applicable to our activities. As a company, we are committed to satisfy applicable requirements related to information security and the continual improvement of the ISMS.
- Provide all the resources of equipment, trained and competent staff and any other requirements to enable these objectives to be met.
- Ensure that all employees are made aware of their individual obligations in respect of this information security policy. And to effectively assign the roles and responsibilities to management and employees.
- Continually measure the effectiveness and performance of our management system based on "risk". Assessing the risks and opportunities that can affect conformity of services and our ability to enhance our client's satisfaction.
- Adopt exceptional standards for information security and making this a top priority.
- Conform to the objectives of the information security management system.
- Ensure that the information security management is designed and tested based on the framework of the ISO:27001 standard.

This information security policy provides a framework for setting, monitoring, reviewing and achieving our objectives, programmes and targets.

To ensure the company maintains its awareness for continuous improvement, the business management system is regularly reviewed by "Top Management" to ensure it remains appropriate and suitable to our business. The ISMS is subject to both internal and external annual audits.

Scope of the Policy

Provision of B2B data analysis and consultancy encompassing real-time insight and competitor intelligence across telecommunications and consumer electronics industries across Europe.
